DESIGN, THROUGH DETAIL

40 YEARS  
OF  
DESIGN  
EXCELLENCE

Contour

We at Amber have developed an all-wood revolving chair for the first time, in the spirit of celebrating four decades in the seating industry. Contour means moulding in a specific shape. It has relatively always been simple to achieve the organic forms with materials like plastic and metal, but due to the robust character of wood, there have been limitations. To overcome this, the technology in moulded compressed wood is further explored. Wood is made to bend in all three axes to get perfect comfort, maintaining aesthetics and strength.

Contour

Contour is an assembly of all moulded compressed wood components. The detailing and joinery of this chair are significant. By smartly designing a C-shaped member, a lot is achieved; it becomes the armrest, the seamless joinery of the back and the seat, and gives the user the flexibility of movement. The wooden back is widely radiused and contoured to achieve perfect ergonomics, and the detail of the open slit enhances the design and allows airflow. Natural latex foam is handcrafted for the back and the seat with upholstery of choice, making it more comfortable for use. The Contour series of chairs are available in a High back and Low back version with features of a revolving seat and castors.

Contour

The Static chair also follows the Contour Design concept of Full compressed wood components. The base profile is of Two U-shaped parts intersected at crisscross to create the chairs' solid and sturdy wood legs.

Contour

The Contour series has an all-wood exclusive dining table paired with compact Contour chairs for the elite cafeterias and private dining areas. The size of this tabletop is customisable, and the minimal legs are made of compressed wood, giving it the desired strength and stability.

Contour

The Contour lounge chairs are entirely cushioned, suitable for cosy office areas and private meeting rooms. These can also be integrated into your home libraries and reading rooms. We have a small wooden coffee table to go with these lounge chairs.

Contour

For the exclusive lounge and waiting areas, the Contour family also has continuous running seating. The layout of these seaters is customisable to the users' need regarding the number of seating, and provision for wooden side tables to keep reading material and beverages servings is also given.
