

Flaunt

Flaunt, one of our iconic offerings is inspired by Birajo a luxury chair created by Amber a few years ago. Of course, we have refined it with time, but the design values remain faithful to the essence. Be it the excellent stitching technique, broad armrests, compressed wood structure, the pattern, everything is chosen to lend it that imperial look. The design is inspired by the spinal cord of the human body and is quite evident throughout the look. The artistic floral patterns, laser-cut throughout the design, is an example of fine detailing and certainly steals the spotlight, travelling right from the profile, the trend extends even to the wooden revolving stand sending a very imperial yet warm and welcoming vibe.

Flaunt

Inspired by the beauty of the chair, we have adapted the same design mantra to craft this Flaunt sofa. The base of the couch is made with solid metal, which is bent and sandwiched between two leather-padded wooden members. A similar design style is used to create an apt corner or centre table that will go flawlessly with the entire collection. As elegant and imperial as it is artful, this look is the most sought-after addition you can opt for your reserved lounge areas or private meeting space.
