

Concave

Concave is one of our newly introduced products. Its primary design element is to separate the Seat from the main stand. The Seat is designed in the concave curvature in compressed wood, hence the name Concave. The structure is made of round metal tubes and is available in 3 sizes. These are non-stackable. We also have continuous running seating with multiple concave seats, which is not flat. These are designed intentionally for public spaces in India to avoid people lying down.
